

Looking for a free, online personal finance course for your CTE class? MoneySKILL offers a high-quality, adaptable curriculum that can be integrated into your virtual or in-person class, and it's available in English and Spanish.

MoneySKILL can be integrated wherever personal finance is taught and it is a must-have for every Career and Technical Education (CTE) classroom.

"MoneySKILL is a perfect tool for educators teaching financial literacy, especially right now in a virtual world."

*Brooke Kusch
Career Counselor
Autry Technology Center
Enid, Oklahoma*

MoneySKILL contains —

37 modules focused on money management fundamentals

Coursework that can be easily adapted for CTSO competitive events or special projects

Coursework available entirely online and well-suited to distance learning

Content available in English and Spanish

Benefits of Offering MoneySKILL as a Part of Your Curriculum

- **Prepares** students for the world of work, small business ownership and entrepreneurship opportunities
- **Supplements** the Finance and Business Management Career Pathways and others
- **Allows** the students to proceed at their own pace with self-directed CTSO projects
- **Provides** extra credit opportunities for advanced students
- **Gives** students peer education content—teaching leads to learning
- **Offers** ready-to-go adult education for community college students who “have learned the hard way” and are developing skills
